

Hedoco Creative Collection

Hedoco Creative AW 2012/13 Collection

Hedoco Creative is a venture of Hedoco and designer Edyta Jermacz. Its distinctive style draws from geometry and minimalism, the designer's two characteristic features. All garments in this collection were designed for creative wearing and can be freely combined to form a variety of stylings.

The autumn colours (petrol and aubergine) are interwoven with shades of gray, while the textiles are the highest quality wool, silk, rayon and natural leather imported from Italy especially for this collection.

Hedoco Creative AW 2012/13 is the result of several months of creative work during which our team was striving to make sure it was designed with the highest attention to detail. The autumn creations offer a feeling of comfort and freedom and can be worn with our own: ledBAG or Eleven Brothers bag to highlight your individual style
